Subject: 4/17 Community Meeting

Good morning all,

OEQ would like to express our gratitude to you and all your staffers for participating in our community meeting last night. I believe we answered citizen's questions and provided excellent customer service!

Pursuant to everyone's request, please see the attached Community meeting sign in sheet. We had a few citizens who did not voluntarily sign in and therefore are not reflected on the sheets. A total count of attendees last night is approx. 38 including all city, EPA, and TCEQ staffers.

I've also got a wave file recording of last night's presentation its rather large at 118mb, if you are interested, I can upload to a dropbox link and provide the link to you for download.

Thank you,

Joseph Vu, M.S., *P.G.
